

High School: The perfect comprehensive STD curriculum. Each product is produced to stand alone. Coupled together, each student receives a full instructional understanding of the STDs facing their generation. STD DVD includes optional medical pictures of what STD's look like in DVD extras.

Grade School/Junior High: A basic, yet comprehensive introduction to HIV/AIDS. Risky behaviors (i.e. sexual contact and I.V. drug use) are delicately and generally addressed without going into specific detail about intercourse/needles. VERY age appropriate and highly recommended by parent groups and educators.
